## TIDBITS

- It is recommended that you check with your local veterinarian to see what vaccination and de-worming program is recommended in your area.
- It is common courtesy to your equine professional (farrier, vet...) to provide them with a safe, well lit area to work. Have the horse ready and stalled, not muddy. Be there, be on time.
- If horses are pastured, shelter is mandatory with access to clean water and salt.
- Horses should not have to rely on drinking from ponds or wet areas because of the possible contamination from snail and contracting Potomac Horse Fever.
- A basic chart of your horse's normal temperature, pulse and respiration is good to have on hand.

## NEW YORK ECONOMIC IMPACT OF THE U.S. HORSE INDUSTRY

- The New York Horse Industry produces goods and services valued at \$1.4 billion.
- 152,000 New Yorkers are involved in the industry as owners, service providers, employees and volunteers. Even more participate as spectators.
- The NY Horse Industry directly provides 12,700 full-time equivalent (FTE) jobs. Spending by suppliers and employees (in NY and other states) generates additional jobs in NY for a total employment impact of 35,200.
- There are 202,000 horses in New York, over 70 percent of which are involved in showing and recreation.

## EQUINE POPULATION BY STATE

## U.S. EQUINE STATISTICS

- There are 9.2 million horses in the U.S.
- 4.6 million Americans are involved in the equine industry, and 2 million people own horses.
- The horse industry has a direct economic effect on the U.S. of \$39 billion annually.
- The horse industry pays \$1.9 billion in taxes to all levels of government.
